

We hire **Research Assistant (50%)**

Workplace: **Naters and Fribourg**
Duration: **May 1 – December 31, 2020**

More information on
UniDistance.ch/jobs

The Swiss Distance University Institute (UniDistance) has been offering numerous degree programs at Bachelor and Master level for more than 25 years. UniDistance employs around 50 staff members and 250 lecturers. Over 1,900 students are currently studying in German or French.

In addition to teaching through distance learning, various research groups are also active at UniDistance. The chEERS Lab, which is headed by Prof. Andrea Samson, is currently looking for new team members.

In order to support the chEERS Lab, we are looking for a committed person to work as a: **Research Assistant (50%)**

Your duties

- Help with recruitment of participants for our research studies: Children, adolescents, and young adults with developmental disorders (e.g., Autism Spectrum Disorders) and typically developing participants
- Testing participants (also ONLINE)
- Data management
- Participation in additional research projects

Your profile

- A dynamic, committed, and socially competent person who is comfortable with organisational activities, working in teams, and leading children, adolescents and young adults through our research protocol
- Good grades in your current university studies (for an undergraduate research assistant) or successful completion of a university degree in psychology, special education or similar
- Knowledge of and experience with individuals with developmental disabilities is an advantage
- Research experience is an advantage
- Good computer skills
- Mother tongue German or French, ideally with a very good knowledge of the other language and good knowledge of English

We offer

- Experience in an innovative research domain
- The opportunity to develop skills in the implementation of research
- A modern and dynamic work environment

Please send your application (copies of diplomas, CV & motivation letter) as soon as possible. We will recruit until the position is filled: **andrea.samson@unidistance.ch**

For any further information please feel free to contact Prof.

Andrea Samson, director of the chEERS Lab:
