Full-Time Research Assistant/Lab Manager at Brown University

The Shenhav Lab (www.shenhavlab.org) is seeking a full-time lab manager. Our lab, located at Brown University, studies the cognitive neuroscience of affect, decision-making, and cognitive control. To accomplish this, we use a combination of behavioral measures, psychophysiology, neuroimaging, and computational models.

The successful candidate will play an integral role in every stage of research, including (1) stimulus/task development, (2) recruitment and collection of human subject data (behavioral and neuroimaging studies), (3) analysis/modeling of data, and (4) assisting in the preparation of grants and manuscripts. In addition, in their managerial capacity they will perform administrative duties (e.g., IRB administration, purchasing) and help train and supervise lab personnel (e.g., undergraduate research assistants).

This position will in turn expose the individual to a wide array of theoretical and methodological approaches in psychology and neuroscience, providing an excellent launching pad for future graduate studies.

Job Qualifications

This position requires:

- Bachelor's degree in psychology, cognitive science, neuroscience, computer science, or related field
- Previous research experience in a psychology or neuroscience lab (minimum 1-2 years preferred)
- Proficiency with a programming language such as Matlab, Python, or Javascript is strongly preferred, and special consideration will be given to individuals with experience collecting and/or analyzing neuroimaging data (or similarly complex datasets).

The ideal start date is May or June of 2021, but we will be considering candidates available earlier or later.

How to Apply

To apply for this position, please follow this link:

https://brown.wd5.myworkdayjobs.com/en-US/staff-careers-brown/job/Metcalf-Research-Lab/Research-Assistant_REQ169478?source=indeed. You will be required to generate a new account on Brown's Career Site.

Please also email your CV, a brief (bulleted) summary of your research interests and technical expertise (including programming background), and the contact information for three references to shenhavlab.brown@gmail.com.
