

## Post-Doctoral Fellowships in Clinical Affective Science

**The Department of Psychological Sciences at Kent State University invites applications for 1-2 post-doctoral research positions. The successful candidates will become part of a multi-disciplinary investigation to understand affective and behavioral predictors of emotion-related psychiatric disorders, including depression, anxiety and stress disorders.**

The Post-Doctoral Fellows will work as part of several NIMH funded projects investigating the role of emotion in-flexibility in risk for affective disease. A particular focus in the next two years will be the application of advanced network models (via machine learning) to better understand disease onset and progression. The project team is led by Dr. Karin Coifman and extends across two hospital recruiting sites, allowing for opportunities for collaboration and additional data collection within surgery, psychiatry, emergency and trauma medicine, in addition to with KSU faculty in health, social psychology, neuropsychology and clinical science. This position offers the opportunity to develop an integrated research program and enhance skills necessary for a successful academic career in psychological science. Salary is consistent with current NIH post-doctoral training levels and includes health insurance and an additional stipend for professional travel, materials etc.. Moreover, *clinical* post-doc fellows will also have ample opportunity to gain requisite clinical hours for licensure in the department clinic.

Post-doctoral applicants must have a Ph.D. in Psychology and demonstrated research productivity in related areas of clinical and/or affect science. Advanced quantitative skills are preferred but not required.

**All inquiries should be addressed to Dr. Karin Coifman ([kcoifman@kent.edu](mailto:kcoifman@kent.edu); 330-672-9155). Send a CV, three letters of reference, and a detailed cover letter describing research experience, interests and career goals by email to [kcoifman@kent.edu](mailto:kcoifman@kent.edu). Applications will be reviewed immediately and start date is flexible.**

**Kent State University, Kent OH**, is nestled between two cities (Cleveland & Akron) and attracts students from diverse socioeconomic backgrounds. Kent, OH is an inexpensive college town with close proximity to national parks, arts and culture. Students and faculty often live within walking distance. The Department of Psychological Sciences is a highly productive, collaborative research environment. The department has over 100 students in doctoral degree programs and over 900 undergraduate majors. There is an established community of post-docs both within the department and across the university community, with considerable post-doc resources and support in place both at the department level and at the institution more broadly.

*Kent State University is an Affirmative Action/Equal Opportunity Employer*
