

Job Announcement: Assistant Professor in Clinical Psychology

THE UNIVERSITY OF LOUISVILLE, LOUISVILLE, KY. The Department of Psychological and Brain Sciences at the University of Louisville invites applications for a full-time, tenure-track position in clinical psychology at the Assistant Professor level beginning August 1, 2023. Successful candidates will hold a Ph.D. from an APA- and/or PCSAS-accredited Clinical Psychology program. They will be expected to maintain an excellent record of research productivity and to contribute to undergraduate and graduate teaching missions of the department.

We invite individuals whose research complements or extends other research foci in the department, including adult and child psychopathology, digital health technology and intervention development, health psychology, geropsychology, and racism/BIPOC mental health (<http://www.louisville.edu/psychology/people/faculty>). We especially encourage individuals with a research program that actively involves underrepresented populations and who demonstrate the potential of attracting extramural funding.

We encourage and invite applicants from diverse backgrounds to apply. Exceptional applicants whose research, teaching, and/or service is situated in anti-racism, decolonization, and/or liberation frameworks will receive strong consideration. In particular, we are interested in candidates whose work advances social justice and amplifies voices that have been minimized, discounted, or otherwise erased from psychological science.

The department hosts two baccalaureate degree programs (Psychology and Neuroscience) and two doctoral programs (Clinical Psychology and Experimental Psychology), and participates in an interdisciplinary doctoral program in Translational Neuroscience.

The Clinical Psychology Ph.D. program has a flexible training model that accommodates clinical science and scientist-practitioner approaches, permitting students to vary their training emphasis in accordance with their career aspirations. The University of Louisville is an urban research university with a student body of 22,000 and 12 schools, including a Health Sciences Center with Schools of Dentistry, Medicine, Nursing, and Public Health and Information Sciences. The University is one of only a few that hold both Carnegie Very High Research and Community Engaged University designations. Research facilities include access to a large computing cluster, a Siemens 3T Skyra MR scanner, and several common research core facilities (<https://louisville.edu/researchcores>).

The University's commitment to diversity and inclusion (<http://louisville.edu/diversity>) has resulted in national recognition for providing a welcoming and supportive environment for Black and LGBTQ+ students. We are committed to attracting and hiring individuals from historically under-represented groups, and culturally humble individuals, who demonstrate capacity to create inclusive work environments, work effectively on diverse teams, and serve the increasingly diverse students we admit and want to retain. The university is in the heart of a metropolitan area of nearly 1 million people that has an affordable cost of living, and is known for its vibrant arts scene, parks system, and culinary excellence.

Application and vita must be submitted via online application. Please submit the following required components via email to Search Committee, Ms. Elizabeth Willis, elizabeth.willis@louisville.edu. Include **Job ID #44598** in subject line:

1. Cover letter
2. CV
3. Representative reprints and preprints
4. Three letters of reference
5. Research statement that addresses program of research and plans for research and potential collaborations in the department
6. Teaching statement that addresses specific graduate and undergraduate teaching interests along with ability to be licensed as a psychologist in the Commonwealth of Kentucky and interest in clinical supervision-related teaching
7. Diversity statement that articulates the candidate's commitment and contributions to diversity, equity and inclusion in teaching, research, and service, and their vision for future contributions.

Review of applications will begin December 1, 2022 and will continue until the position is filled.
