

2025 SAS Clinical Affective Science Pre-Conference

Date: Thursday, March 20, 2025 Co-Chairs: Lisa Starr, Ph.D., University of Rochester & Vera Vine, Ph.D., Queen's University

The inaugural SAS preconference on Clinical Affective Science will explore the vibrant, emerging area of research at the intersection of affective science and clinical science. Featuring invited talks and panels, submitted posters and flash talks, and networking opportunities, the event will bring together scholars at all career stages to articulate the goals and boundaries of this growing subfield.

PRE-CONFERENCE SCHEDULE

8:10am-3:30am Check-In 8:30am-9:40am Opening Remarks Dr. Liss Starr & Dr. Vera Vine 8:40am-9:40am Invited Talks: Big Ideas in Clinical Affective Science Dr. Liss Starr & Dr. Vera Vine 8:40am-9:40am Invited Talks: Big Ideas in Clinical Affective Science Dr. Lens Starr & Dr. Vera Vine 9:40am-10:10am Emain Talks: Multi-Componential and Oynamic Affective Science that could Advance Intervention in the Next Decade 9:40am-10:10am Emain Talks: Multi-Componential and Oynamic Affective Science that could Advance Intervention in the Next Decade 9:40am-10:10am Emain Talks: Multi-Componential and Oynamic Affective Approaches to Psychopathology Emain University Daseen Bords: Emolonal Pathways in Passing Down Borderline Personality Traits Swamaya Guign - Texas Tech University Understanding Heterogeneity in Youth at Clinical High Risk for Psychosis Using the Evaluative Space Model 10:10am-11:10am Coffee Break + Poster Session see below for full list of posters 11:11fsm-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Pittsburgh Dr. Lauren Bylsma - University of Pittsburgh Dr. Lauren Bylsma - University of Pittsburgh 11:10am-11:10am Eckering Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Adatic Aduts Dr. Lauren Bylsma - University Of Dittsburgh Internationage Psychophylobiological App		
Dr. Lis Star & Dr. Vera Vine 8:40am-9:40am Dr. Lis Star & Dr. Vera Vine 8:40am-9:40am Dr. Jennifer Velluez - University of Arkansas Examining Momentary Distress (In) Toberance Through an Affective Science Lense Dr. Jennifer Velluez - University of Arkansas Examining Momentary Distress (In) Toberance Through an Affective Science Lense Dr. Senife Collinearia Science Intervention in the Next Decade 9:40am-10:10am Elash Talks: Multi-Componential and Dynamic Affective Approaches to Psychopathology Email Naz - Ouer Science Intervention Personality Traits Swanaya Gurigr - Texas Tech University Ball-Colliciam and Negative Affect: A Multi-Sample Approach to Prospective Within-Person Dr. Ian Raugh - Nocial University Ball-Colliciam and Negative Affect: A Multi-Sample Approach to Prospective Within-Person Dr. Ian Raugh - Nocial University Ball-Colliciam and Negative Affect: A Multi-Sample Approach to Prospective Within-Person Dr. Ian Raugh - Nocial University Understanding Heterogeneity in Youth at Clinical High Fisk for Psychosis Using the Evaluative Space Model 10:10am-11:10am Coffee Break + Poster Session see below for full list of posters 11:110am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bytema - University of Pathophytological Approaches with Ecological Momentary Assessment and Physiologically-Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Adrites Callis 11:10am-11:10am Low regulation as a Clinical Process Dr. Meghan Quinn - William & Mary Internating Psychophytological Approaches with Ecological Momentary Assessment and Physiologically-Triggered Reports to Improve Understanding of Aff	8:10am-8:30am	Check-In
8:40am-9;40am Invited Talks: Big Ideas in Clinical Affective Science Dr. Jennifer Veilleux - University of Arkanasas Examining Momentary Distress (IR) Tolerance: Through an Affective Science Lense Dr. Karin Colfman - Kent State University Three Opportunities from Clinical Affective Science that could Advance Intervention in the Next Decade 9:40am-10:10am Elash Talks: Multi-Componential and Dynamic Affective Approaches to Psychopathology Emma Ilyza - Queen's University Unisees Bonds: Emcoland Pathways in Passing Down Borderline Personality Traits Swanaya Gurjar - Texas Tech University Unisees Bonds: Emcoland Pathways in Passing Down Borderline Personality Traits Swanaya Gurjar - Texas Tech University United Talks: Emotion Pathways in Passing Down Borderline Personality Traits Swanaya Gurjar - Texas Tech University Understanding Heterogeneity in Youth at Clinical High Risk for Psychosis Using the Evaluative Space Model 10:10am-11:10am Coffee Break + Poster Session see below for full list of posters 11:115am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylama - University of Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically - Traggred Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults 12:15pm-1:10pm Lunch + Networking 11:10pm-1:40pm Preschopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emmoniting Psychophysiological Process 12:15pm-1:10pm Lunch + Networking 11:10pm-1:40pm Dr. Barlan Talks: Meta Emotion as a Clinical Process	8:30am-8:40am	Opening Remarks
Dr. Jennifer Veillaux - University of Arkanasa Examining Momentary Distress (in/Tolerance Through an Affective Science Lense Dr. Karin Colfman - Kent State University Three Opportunities from Clinical Affective Science that could Advance Intervention in the Next Decade 9:40am-10:10am Elash Talks: Multi-Componential and Dynamic Affective Approaches to Psychopathology Emme Hyaz - Ouen's University University University Ende Dodd: Emotional Pathways in Passing Down Borderline Personality Traits Swanaya Guijar - Texes Tech University Saffective Approach to Prospective Within-Person Dr. Ia Raugh - McGill University University University Generate Seasion see below for full list of posters Saffective Approach to Prospective Within-Person Dr. Lauren Bylama - University of Pittsburgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiological/ Psychophysiological Approaches with Ecological Momentary Assessment and Physiological/Psychophysiological Approaches with Ecological Momentary Assessment and Physiological/Properturbation of Materia Mary 11:15am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylama - University of Naryland-Baltimore County Berowload Good and Bad Stategies: Emotion Regulation Diverse Attempts to Regulate Emotions Dr. Height Talks: Meta-Emotion as a C		Dr. Lisa Starr & Dr. Vera Vine
Examining Momentary Distress (In)Tolerance Through an Affective Science Lense Dr. Karin Colfman - Kent Statk University Three Opportunities from Clinical Affective Science that could Advance Intervention in the Next Decade 9:40am-10:10am Elash Talks: Multi-Componential and Dynamic Affective Approaches to Psychopathology Emmal lyza - Queen's University Unseen Bonds: Emotional Pathways in Passing Down Borderline Personality Traits Swamay Gurjar - Texas Tech University Self-Criticism and Negative Affect: A Multi-Sample Approach to Prospective Within-Person Dr. In Raugh - McColl University Understanding Heterogeneity in Youth at Clinical High Fiek for Psychosis Using the Evaluative Space Model 10:10am-11:10am Coffee Break + Poster Session see below for full list of posters 11:10am-11:15am Break 11:15am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylema - University of Pittsburgh Leveraging Ambuilatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiological/Progred Perports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Lauren Bylema - University of Maryiand-Baltimore County Beyond Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:40pm Elash Talks: Meta-Emotion as a Clinical Process Dr. Meeghan Quint - William & Mary </th <th>8:40am-9:40am</th> <th>Invited Talks: Big Ideas in Clinical Affective Science</th>	8:40am-9:40am	Invited Talks: Big Ideas in Clinical Affective Science
Dr. Karin Coffman - Kent State University Three Opportunities from Clinical Affective Science that could Advance Intervention in the Next Decade 9:40am-10:10am Elash Talks: Multi-Componential and Oynamic Affective Approaches to Psychopathology Emma liyaz - Queen's University University University University University Self-Chickiam and Negative Affect: A Multi-Sample Approach to Prospective Within-Person Dr. Ian Raugh - McGill University University of Prisburgh I1:10am-11:15am Break 11:15am-12:15pm Laureen Bylema - University of Phitsburgh Dr. Laureen Bylema - University of Phitsburgh Dr. Meghan Dulin - Wilkins & Mary Internationg Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Environs among Autolic Adults Dr. Meghan Dulin - Wilkins & Mary Internationg Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Enviro		
B:40am-10:10am Elash Talks: Multi-Componential and Oynamic Affective Approaches to Psychopathology Emma liya: - Ouen's University Unseen Bonds: Emotional Pathways in Passing Down Borderline Personality Traits Swanaya Gurger - Texas Tech University Understanding Heterogeneity in Youth at Clinical High Risk for Psychosis Using the Evaluative Space Model 10:10am-11:10am Coffee Break + Poster Session see below for full list of posters 11:10am-11:15am Break 11:10am-11:16am Coffee Break + Poster Session see below for Juli list of posters 11:10am-11:15am Break 11:10am-11:15am Break 11:10am-11:15am Break 11:10am-11:16am Leveraign Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically-Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults 12:15pm-1:10pm Lunch + Networking 11:10am-11:40pm Coffee Break + Poster Sean-Ina		
Emma Ilyaz - Queen's University Unseen Bonds: Emotional Pathways in Passing Down Borderline Personality Traits Swanaya Gurjar - Taxas Tech University Soft Criticism and Negative Affect: A Multi-Sample Approach to Prospective Within-Person Dr. Ian Raugh - McGill University Understanding Heterogeneity in Youth at Clinical High Risk for Psychosis Using the Evaluative Space Model 10:10am-11:10am Coffee Break + Poster Session see below for full list of posters 11:10am-11:15am Break 11:115am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Pittsburgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Psychopitaling Psychophysiological Approaches with Ecological Momentary Assessment and Psychopitathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Heynen Outinn - William & Mary Internating Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Litra Yoon - University of Maryland-Battimore County Ernolional Clarity as a Mediatorin the Relationship Between Depressive Symptoms and Recovery from Failure 11:10pm-1:40pm Catababet Kneeland - Amherst College Mediatorin the Relationship Between Depressive Symptoms and Recovery from Failure 1:40pm-2:50pm Invited Panej: Clinical Affective Science: The What, the So What, and What's Next Panelists:		
Unseen Bonds: Emotional Pathways in Passing Down Borderline Personality Traits Swanaya Gurgiar - Traxas Tach University Self-Citicius and Negative Affect: A Multi-Sample Approach to Prospective Within-Person Dr. Ian Raugh - McGill University Understanding Hetrogeneity in Youth at Clinical High Risk for Psychosis Using the Evaluative Space Model 10:10am-11:10am Coffee Break + Poster Session see below for full list of posters 11:10am-11:15am Break 11:15am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Physhorgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiological/Progenets to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Meghan Quinn - William & Mary Internalizing Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Litar Yoon - University of Maryland-Baltimore County Beyond 'Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:10pm Lunch + Networking Emotional Carity as a Mediator in the Relationship Between Depressive Symptoms and Recovery from Failure Dr. Shimrit Daches - Bar-Ilan University Emotional Carity as a Mediator in the Relationship Between Depressive Symptoms and Recovery from Failure 1:40	9:40am-10:10am	
Swanaya Gurjar - Texas Tech University Self-Criticism and Negative Affect: A Multi-Sample Approach to Prospective Within-Person Dr. Ian Raugh - McGill University Understanding Heterogeneity in Youth at Clinical High Risk for Psychosis Using the Evaluative Space Model 10:10am-11:10am Coffee Break + Poster Session see bolow for full list of posters 11:10am-11:15am Break 11:11am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Pittsburgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically-Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Lauren Bylsma - University of Maryland-Baltimore County Beyond 'Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:10pm Lunch + Networking 11:10pm-1:40pm Elash Talks: Meta-Emotion as a Clinical Process Dr. Lira Yoon - University of Maryland-Baltimore County Beyond Emotion Maleability Beliefs Predict Clinical Symptoms. Affect, and Emotion Regulation Dr. Elizabeth Kneeland - Amherat College Mediatorin the Relationship Between Depressive Symptoms and Recovery from Failure Dr. Elizabeth Kneeland - Amherat College Me versus Everyone: Discrepancies Between General and Personal Emotion Maleability Beliefs Predict Clinical Symptoms. Affect, and Emotion Regulation Dr		
Self-Criticism and Negative Affect: A Multi-Sample Approach to Prospective Within-Person Dr. Ian Raugh - McGill University Understanding Heterogeneity in Youth at Clinical High Risk for Psychosis Using the Evaluative Space Model 10:10am-11:10am Coffee Break + Poster Session see below for full list of posters 11:10am-11:15am Break 11:15am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Pittsburgh Dr. Lauren Bylsma - University of Pittsburgh Everaging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically-Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Meghan Quinn - William & Mary Internalizing Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Lira Yoon - University of Maryland-Baltimore County Beyond Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:40pm Elash Talks: Meta-Emotion as a Clinical Process Dr. Shimrit Daches - Bar-Ilan University Emotional Clarity as a Mediator in the Relationship Between Depressive Symptoms and Recovery from Failure Dr. David Preces - Started University Meterotard University Alexithymia: Current Status and Future Prospects 1:40pm-2:50pm Invited Panel: Clinical Affective Science: The What, the So What, and What's Next Panelists: Dr. June Gruber - University of Colorado, Boulder Dr. Luis Flores - Ruigers University, New Brunswick Dr. Duo		
Dr. Ian Raugh - McCill University Understanding Heterogeneity in Youth at Clinical High Risk for Psychosis Using the Evaluative Space Model 10:10am-11:10am Coffee Break + Poster Session see below for full list of posters 11:10am-11:15am Break 11:115am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Pittsburgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically. Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Luren Bylsma - University of Pittsburgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically. Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Luren Pyonopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Luren Yoron - University of Maryland-Baltimore County Beyond 'Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:10pm Lunch + Networking 1:10pm-1:40pm Elash Talks: Meta-Emotion as a Clinical Process Dr. Flizzbeth Kneeland - Amherst College Me Versus Everyone: Discrepancies Between General and Personal Emotion Malleability Beliefs Predict Clinical Symptoms, Affect, and Emotion Regulation Dr. David Prece - Startion University Meta-Emotion As a Future Prospects Invited Panel: Clinical Affective Science: The What, t		
Model 10:10am-11:10am Coffee Break + Poster Session see below for full list of posters 11:10am-11:15am Break 11:11am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Pittsburgh Leveraging Arbublatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically-Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Lauren Bylsma - University of Maryland-Baltimore County Beyond Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:10pm Lunch + Networking 11:10pm-1:40pm Flash Talks: Meta-Emotion as a Clinical Process Dr. Elizabeth Kneeland - Amherst College Me Versus Everyone: Discrepancies Between General and Personal Emotion Malleability Beliefs Predict Clinical Symptoms, Affect, and Emotion Regulation Dr. David Preece - Stanford University Alexithymia: Current Status and Future Prospects 1:40pm-2:50pm Invited Praes: Clinical Affective Science: The What, the So What, and What's Next Panelists: Dr. Luis Flores – Rutgres University of Colorado, Boulder Dr. Luis Flores – Rutgres University of Colorado, Boulder Dr. Luis Groes – Rutgres University, New Brunswick Dr. Benee Thompson · Washington University Moderators:		
see below for full list of posters 11:10am-11:15am Break 11:15am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Pittsburgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiological/britigget Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Meghan Quinn - William & Mary Internalizing Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Lira Yoon - University of Maryland-Baltimore County Beyond 'Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:10pm Lunch + Networking 11:10pm-1:40pm Flash Talks: Meta-Emotion as a Clinical Process Dr. Shimrit Daches - Bar-Ilan University Emotional Clarify as a Mediator in the Relationship Between Depressive Symptoms and Recovery from Failure Dr. Elizabeth Kneeland - Amherst College Me Versus Everyone: Discrepancies Between General and Personal Emotion Malleability Beliets Predict Clinical Symptoms, Affect, and Emotion Regulation Dr. David Prece - Stanford University Alexithyrmia: Current Status and Future Prospects 1:40pm-2:50pm Invited Panel: Clinical Affective Science: The What, the So What, and What's Next Panelists: Dr. June Gruber - University of Colorado, Boulder Dr. Lius Fores – Nutyers University, New Tornswick Dr. Rence Thompson - Washington University Broberes Diversity, New Tornswick Dr. Boug Mennin - Teacher's College, Columbia University Moderators:		
see below for full list of posters 11:10am-11:15am Break 11:15am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Pittsburgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiological/britigget Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Meghan Quinn - William & Mary Internalizing Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Lira Yoon - University of Maryland-Baltimore County Beyond 'Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:10pm Lunch + Networking 11:10pm-1:40pm Flash Talks: Meta-Emotion as a Clinical Process Dr. Shimrit Daches - Bar-Ilan University Emotional Clarify as a Mediator in the Relationship Between Depressive Symptoms and Recovery from Failure Dr. Elizabeth Kneeland - Amherst College Me Versus Everyone: Discrepancies Between General and Personal Emotion Malleability Beliets Predict Clinical Symptoms, Affect, and Emotion Regulation Dr. David Prece - Stanford University Alexithyrmia: Current Status and Future Prospects 1:40pm-2:50pm Invited Panel: Clinical Affective Science: The What, the So What, and What's Next Panelists: Dr. June Gruber - University of Colorado, Boulder Dr. Lius Fores – Nutyers University, New Tornswick Dr. Rence Thompson - Washington University Broberes Diversity, New Tornswick Dr. Boug Mennin - Teacher's College, Columbia University Moderators:	10:10am-11:10am	Coffee Break + Poster Session
11:15am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Pittsburgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically-Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Meghan Quinn - William & Mary Internalizing Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Lira Yoon - University of Maryland-Baltimore County Beyond 'Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:10pm Lunch + Networking 1:10pm-1:40pm Flash Talks: Meta-Emotion as a Clinical Process Dr. Shimrit Daches - Bar-Ilan University Emotional Clarity as a Mediator in the Relationship Between Depressive Symptoms and Recovery from Failure Dr. Elizabeth Kneeland - Amherst College Me Versus Everyone: Discrepancies Between General and Personal Emotion Malleability Beliefs Predict Clinical Symptoms, Affect, and Emotion Regulation Dr. David Preece - Stanford University Alexithymia: Current Status and Future Prospects 1:40pm-2:50pm Invited Panel; Clinical Affective Science: The What, the So What, and What's Next Panelists: Dr. June Gruber - University of Colorado, Boulder Dr. Ling Fores – Rutgers University, New Brunswick Dr. Rence Thompson - Washington University, St. Louis Dr. Doug Mennin - Teacher's College, Columbia University		
11:15am-12:15pm Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations Dr. Lauren Bylsma - University of Pittsburgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically-Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Meghan Quinn - William & Mary Internalizing Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Lira Yoon - University of Maryland-Baltimore County Beyond 'Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:10pm Lunch + Networking 1:10pm-1:40pm Flash Talks: Meta-Emotion as a Clinical Process Dr. Shimrit Daches - Bar-Ilan University Emotional Clarity as a Mediator in the Relationship Between Depressive Symptoms and Recovery from Failure Dr. Elizabeth Kneeland - Amherst College Me Versus Everyone: Discrepancies Between General and Personal Emotion Malleability Beliefs Predict Clinical Symptoms, Affect, and Emotion Regulation Dr. David Preece - Stanford University Alexithymia: Current Status and Future Prospects 1:40pm-2:50pm Invited Panel; Clinical Affective Science: The What, the So What, and What's Next Panelists: Dr. June Gruber - University of Colorado, Boulder Dr. Ling Fores – Rutgers University, New Brunswick Dr. Rence Thompson - Washington University, St. Louis Dr. Doug Mennin - Teacher's College, Columbia University		
Dr. Lauren Bylsma - University of Pittsburgh Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically-Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Meghan Quinn - William & Mary Internalizing Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Lira Yoon - University of Maryland-Baltimore County Beyond 'Good' and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:10pm Lunch + Networking 1:10pm-1:40pm Elash Talks: Meta-Emotion as a Clinical Process Dr. Shimrit Daches - Bar-Ilan University Emotional Clarity as a Mediator in the Relationship Between Depressive Symptoms and Recovery from Failure Dr. Elizabeth Kneeland - Amherst College Me Versus Everyone: Discrepancies Between General and Personal Emotion Malleability Beliefs Predict Clinical Symptoms, Affect, and Emotion Regulation Dr. David Precec - Stanford University Alexithymia: Current Status and Future Prospects 1:40pm-2:50pm Invited Panel: Clinical Affective Science: The What, the So What, and What's Next Panelists: Dr. June Gruber - University of Colorado, Boulder Dr. Luis Flores – Rutgers University, New Brunswick Dr. Renee Thompson - Washington University, St. Louis Dr. Doug Mennin - Teacher's College, Columbia University Moderators:	11:10am-11:15am	Break
Leveraging Ambulatory Psychophysiological Approaches with Ecological Momentary Assessment and Physiologically-Triggered Reports to Improve Understanding of Affective Experience and Behaviors among Autistic Adults Dr. Meghan Quinn - William & Mary Internalizing Psychopathology is Characterized by Earlier and More Diverse Attempts to Regulate Emotions Dr. Lira Yoon - University of Maryland-Baltimore County Beyond Good" and 'Bad' Strategies: Emotion Regulation Diversity in Clinical and Stress-Related Contexts 12:15pm-1:10pm Lunch + Networking 1:10pm-1:40pm Flash Talks: Meta-Emotion as a Clinical Process Dr. Shimrit Daches - Bar-Ilan University Emotional Clarity as a Mediator in the Relationship Between Depressive Symptoms and Recovery from Failure Dr. Elizabeth Kneeland - Amherst College Me Versus Everyone: Discrepancies Between General and Personal Emotion Malleability Beliefs Predict Clinical Symptoms: Affect, and Emotion Regulation 1:40pm-2:50pm Invited Panel: Clinical Affective Science: The What, the So What, and What's Next Panelists: Dr. June Gruber - University of Colorado, Boulder Dr. Luis Flores - Rutgers University, New Brunswick Dr. Renee Thompson - Washington University, St. Louis Dr. Doug Mennin - Teacher's College, Columbia University Moderators:	11:15am-12:15pm	Invited Talks: Emotion Regulation as a Transdiagnostic Process: Novel Methods and Conceptualizations
